Program:

Newcastle University - 50 % discount for tuition for 2 years!

Newcastle University - is a state university, located in the city of Newcastle in the north east of England. Located in a historic building of the Victorian era, the university combines a long history and advanced technology. This is confirmed by the university rankings:

Member of the elite group of universities Russell Group

90% student satisfaction (National Student Survey, 2016)

22nd place in the UK

TOP 20 on career prospects for graduates

The University was founded in 1834, currently has more than 20,000 students from more than 120 countries. Newcastle has 4 main faculties:

Faculty of Humanities and Social Sciences

Faculty of Medical Sciences

Faculty of Science

Agriculture and Engineering

All faculties have more than 175 bachelor specialties, as well as more than 300 graduate and doctoral programs. The University spends 457 million pounds (!) Annually on research, making it one of the most powerful research universities in the UK.

About City

Newcastle is rightly called the "City of bridges", because there are many 7 picturesque bridges in this small town! And the city is not really so big, you can get around it literally in 1 hour, while here there is everything that a big city offers: rich cultural life, active nightlife, lush green parks and large shopping centers. NE1's Newcastle Fashion Week, open-air cinemas, Gourmet Weeks and much more will come to your attention if you become a student at Newcastle University!

Navigating the city is very easy and safe using a bike or subway. Just 30 minutes away by subway, you can reach the sea, enjoy the sandy beaches and breathtaking views. Students are never bored here: you can always sit in some cozy cafe with a laptop and work out, on weekends cheer with British fans for the local football team at St James Park Stadium, or get away from the city rush closer to the sea.

For students who apply after 11 grade, the Foundation program is provided - a program of 9 or 12 months, in which students study introductory subjects in their specialty, and also additionally take academic English. The program was designed to bridge the difference between schooling in other countries and the UK, as British schoolchildren study for 12-13 years.

The following Foundation programs are available:

Biological and Biomedical Sciences

Humanities and Social Sciences

Architecture

Physics and Engineering

Business and Management

For example, at the Foundation for Biological and Biomedical Sciences, you will take such subjects as:

Academic English Training

Learning skills

Chemistry

Mathematics and Statistics

Biology

Physics

At the end of the program, you are guaranteed to go to the 1st bachelor's course (in the UK, the bachelor lasts 3 years), provided that you maintain a consistently high level of grades and attendance.

Now the long-awaited information about the discount! Those students who apply for the Foundation can apply for a 50% discount on the Foundation and 50% for the first year of a bachelor's degree! Since the discount is issued on a competitive basis, you need to carefully try: you must have high school performance, as well as prepare a portfolio of your work (when applying to the Foundation for Architecture). Here you can find out what the requirements for the portfolio are from the university. Accepting applications is already actively gaining momentum, so you need to submit as soon as possible! Each year, only 10 scholarships are awarded to all international students.

Accommodation:

Student Residences

One bedroom

Perfect for students, who want to concentrate their attention on learning. There is a common living room for 7 students.

The room has:

- Single bed (bedding included)
