Lakehead University - is a dynamic and modern university in Canada with high-quality study programs whose main objectives are to provide a good education that will ensure a successful career for every student, including students from Kyrgyzstan.

Program:

Lakehead University

Lakehead University - State Research University, has campuses in two cities in the province of Ontario - Thunder Bay (main campus) and Orilla. It was founded in 1946 initially as the Lakehead Technical Institute, and then in 1965 received university status. The university offers bachelor's and master's programs; in 2013 was opened the Faculty of Law; there is a business faculty, the only one in Northern Ontario who has AACSB accreditation.

Lakehead focused on research: the university has a one-of-a-kind DNA research laboratory, a bio-processing research institute, a center of excellence in sustainable mining, etc. In total, about 8,000 students study at 2 campuses, which is not so much for a state university, which means that the interaction of the professor with each student is quite high.

7 reasons to choose Lakehead University:

High chances of success - 94.5% of students find work within 2 years after graduation

Top Research University - over the past 3 years (2015, 2016, 2017) has been recognized as the best research university in Canada (research at the undergraduate level)

World class infrastructure - the latest laboratories, computer labs that allow students to apply their knowledge in practice.

Real diving in Canada - Thunder Bay and Orillia are the two best cities where you can truly experience Canada. Orillia, located in the heart of the Lake Muskoka, offers many opportunities for cultural and active recreation, as well as located near the largest Canadian city of Toronto (150 km). Thunder Bay is located on the shores of Lake Superior, the largest freshwater lake in the world. In addition to numerous opportunities for outdoor activities, the city has an active art and cultural environment, theaters, museums, exhibitions, open-air concerts, shopping and much more

Small class size. More than 85% of classes have no more than 50 students (for comparison, a typical state-owned university in the United States has about 200 people per audience)

Exceptional student support — Lakehead University takes care of its students. There is a career center, leadership development, academic counseling, personal tutors, training skills workshops, and a health center at your service.

Practical training - internships in companies, cooperative training, educational excursions are just a small list of practical opportunities that the university provides for its students.

Faculties:

- Business administration
- Education
- Behavioral sciences and health
