Studying in Denmark at the International Business Academy in Kolding IBA offers, besides high-quality educational experience, an interesting and rich student life at the Academy, there are opportunities for academic exchanges and internships abroad.

Program:

We open a new direction for us - studying in Denmark!

Higher education is focused on finding solutions to real problems, so theoretical lectures are always supported by practical exercises — every institution of higher education in Denmark has connections with the industry.

International Business Academy - is a private institution of higher education located in the city of Kolding in the southern part of Denmark. As the name implies, the university is focused on the business specialty. Over its 100-year history, this school has grown from a simple evening school to a large university with more than 6,000 students. Since 1991, the IBA has developed strong ties with universities in Europe and other countries. The Academy is a permanent member of the Network of International Business Schools (International Business School Network) and works closely with many companies and organizations around the world.
