Страна: Kyrgyzstan

Organizing any complexity of tours to Issyk-Kul, Son-Kul, around Kyrgyzstan and Central Asia. We guarantee you high quality of service and individual approach!:

Mountain Lake Son-Kol (3016 m) is a favorite place for summer pastures for local residents and Kyrgyz nomads. The road to the lake has stunning views of Tien-Shan Mountains, green pastures where you can see herding horses and sheep, small mountains, rivers and definitely local nomads with their yurts. You can stop and visit nomads where you will be offered bread and national drink Kymyz (fermented mare's milk) as a means of their hospitality. The area around the lake is very picturesque, especially in summer. Due to the high altitude, there are no trees, only low hard grass and edelweiss can grow in these conditions.
